RE: Plumbing Inspection and Preventive Maintenance

REQUEST FOR PROPOSAL

The Saginaw Chippewa Indian Tribe, through its Housing Office, is requesting proposals from licensed plumbers for plumbing inspections and preventive maintenance at **Isabella Indian Reservation and Saganing Reservation in Standish (see attached list of addresses)**. This project will also include the **Housing Office, Maintenance Warehouses**.

Concluding each inspection, a detailed report by unit on the condition, repairs conducted, and future repairs needed on each unit inspected shall be provided to the Housing Office.

The project is expected to commence approximately October 19, 2015 and run through September 30, 2016. HUD rules and regulations will apply. The Saginaw Chippewa Housing Department will monitor the repair/replacement of PLUMBING fixtures, and reserves the right to inspect at any stage of completion. The proposal must include inspection of all PLUMBING fixtures. All work must be performed to state and International Building Codes. Copies of license and insurance for yourself shall be submitted with the proposed bids. Prevailing wages approved by the Department of Labor via HUD form 52158 for the Saginaw Chippewa Indian Tribe will be enforced effective October 1, 2015 (residential PLUMBING Isabella County www.wdol.gov.) The Saginaw Chippewa Housing Office is a tax- exempt, non-profit entity. Please review the detailed "Residential Specifications Scope of Work" following the initial scope of work. Specifications are available at the Housing office..

Please be aware that all invoices submitted for completed work, should you be awarded the bid, must be detailed as to work performed. This detail must include hours, materials, address where work was performed, etc. Any invoice lacking this important information will be rejected and must be resubmitted with the correct information.

Scope of Work

Upon successful award of the proposal:

1. Meet with the Housing Manager and Development Coordinator of this project, along with all proposed subcontractors. Coordinating with local and outside utility organizations to properly arrange for any necessary turn off of utilities in a safe manner.
2. Scope is to **include any and all permits** required to carry out and fulfill this project to its entirety.
3. The Tribe will require proper insurance coverage and licensing for any and all contracting and/or employees.
4. Listing of all subcontractors that you will require on this project for the completion through its entirety.
5. Prevailing wages will be applicable.
6. All labor and materials for the project shall be in accordance with the most current and updated edition of the International Building Code as adopted by the Saginaw Chippewa Tribe 7/16/01.
7. Copies of code information are available upon request from the planning department.
8. **Obtain all required permits** as necessary, including sub-trades before any work begins.
9. Must be available for emergency work.

Residential Specifications Scope of Work

Site Work:

- Check operation and condition of all equipment.
- All shut off valves for closure and leaks in packing and cross connection vac breaker.
- Each bathtub faucet for leaks.
- Shower heads for function.
- Trip wastes to insure that they hold water.
- Overflow of trip waste for water tight seal.
- Where applicable, check bottom shoe connection of waste and overflow for leaks.
- Each toilet tank tested with dye to see if flush valve leaks.
- All ball cocks for stoppage.
- Toilet seat for the condition and tightness.
- Tank and bowl connection for leakage.
- Bowl seal on floor for leakage.
- Bolts and bolt caps.
- Lavatory faucets for leaks.
- Pop up assembly for stoppage of stopper and visible leaks.
- P trap connection for leaks.
- Supply line for leaks.
- Overall condition of all vanity cabinets; i.e. condition of drawers, bottom of cabinet and cabinet doors, toilet paper dispenser.

- Washing machine hook up from washer box faucet connection to washing machine if applicable.
- Kitchen faucet for leaks, dripping, or “O” rings and spout.
- All faucet aerators.
- All waste and water connections for leakage under kitchen sinks; to include basket strainers, tail pieces, continuous waste, and p traps.
- Kitchen sink for leakage due to poor kitchen sink seal, i.e. putty or caulk.
- All drains for flowage; note any plugged or slow drains and their locations.
- Check water on all floor drains in mechanical rooms and note if they are full of debris or missing grate.
- Check caulking of all bathtubs and lavatories at bottom of stool.
- Snaking of lines as needed.
- Check for mold.
- Check washer drain waste.

All labor costs for repairs to any of the plumbing in the rental units and Housing Office shall be included in the contract price for the period commencing on the date of signing of the contract. Replacement parts shall be provided from the Housing warehouse inventory. All work following the inspections will be done on an hourly basis and should be reflected in the proposal pricing. This should include cabling and any emergency hourly rates for any work required.

Proposals may be submitted by mail or delivered in person to:

**April L. Borton, Housing Manager or
Lionel Endres, Maintenance Supervisor/Project Coordinator**

**Saginaw Chippewa Housing
2451 Nish Na Be Anong
Mt. Pleasant, MI 48858**

on or before Thursday September 24, 2015 at 4:00 p.m. Proposals must be marked clearly “**Proposal for Plumbing Maintenance– Do Not Open**”.

The method of ranking proposals shall be as follows:

Price	45 points
Indian Preference	10 points
Past experience	10 points
References from three (3) persons who have utilized your services	15 points
Time frame for completion of work	10 points
Hourly Rate	10 Points
TOTAL POINTS AVAILABLE	100 POINTS

Should you have questions you may contact the Housing Department
Maintenance Supervisor at 989-775-4586.
