The Ziibiwing Center of Anishinabe Culture & Lifeways is home to an impressive collection of archival materials that documents the history and present of the Saginaw Chippewa Indian Tribe of Michigan and the Great Lakes Anishinabek. Historical and contemporary materials including military records, newspaper clippings and photographs will be exhibited in honor of Veterans Day and those that have served. A significant portion of the archival collection has been donated through the generosity of our tribal community. If you have considered preserving your Anishinabek family military records, we would be happy to assist you in making a donation. Help us to help you in honoring your loved ones sacrifice.
