Aanii,

My name is Miranda Pelcher. In May 2025, I was promoted from Admissions & Occupancy Specialist to Regulatory Compliance Specialist. Since stepping into this role at the Housing Department, I've dedicated myself to expanding my knowledge, diving into comprehensive training, and mastering the regulatory details that keep our operations running smoothly.

It is deeply rewarding to deliver these essential upgrades to our reservation and check critical goals off our list. We have several more community initiatives in the pipeline, and I look forward to sharing further updates as they unfold.

It has been an absolute honor to manage key improvements for both our department and the broader community.

Here are a few notable projects completed recently:

Miranda Pelcher-Miley
Regulatory Compliance Specialist

Supportive Housing:

Added a brand-new playground for the tenant's children and families.

Department Fleet:

Secured a new SUV for Supportive Housing and a customized four-door utility truck equipped with a Tommy Gate and spacious bed compartments to support daily operations.

Roofing Upgrades:

Installed four metal roofs across two tenant residences in Mount Pleasant, as well as the Broadway Park pavilion and both Little Elk dugouts.

Paving & Accessibility:

Reused and repaved asphalt surfaces to improve local access and site quality.

HVAC & Infrastructure:

Upgraded furnaces and air conditioning systems for seven tenant homes. In Standish, completely modernized all eight tenant properties by removing old propane tanks and installing new furnaces, AC units, and water heaters.

Nimkee Basketball Court:

We did not necessarily do the actual purchasing for this project but we were able to fund the entire basketball court project for Nimkee.
