Latasha Montalvo is our recently hired Assistant Housing Manager in the SCIT Housing Department. She is a proud member of the Tribe and has worked for the Tribe consistently for just over the past five years since finding her way back home. She spent the last four and a half years in the Tribal Licensing & Regulations office, formerly Business Regulations, where she assisted with the launch of the Mno-Shkiziwin program along with other changes that were happening behind the scenes there. Latasha earned her Bachelor of Science in Integrated Studies in Winter of 2024 from Ferris State University, with a combined concentration in Business Administration and Project Management. She also earned a Project Management Certificate from Ferris in the same academic year. She recently started her MBA program in Project Management in January of this year, and hopes to be finished with this program by Winter 2027. She is excited to be a part of the team and learn all the ways she can serve the community within our department
